NURSERY & PRESCHOOL

N Ockham

Your neighbourhood nursery

Nestled in the idyllic grounds of Pound Farm in the village of Martyr's Green, N Ockham is an early years setting like no other.

Surrounded by fields, the converted barn is filled with character while equally purpose-built to support every element of the N curriculum and range of N Extras - yoga, Spanish, Doodle Dance, and cooking and baking. The playrooms are flooded with natural light, while outside, the large gardens come complete with a race-track and play equipment - perfect for outdoor learning and burning off energy throughout the day!

Awarded an Eco-Schools Green Flag accreditation with merit (2024), the nursery is committed to furthering the Global Responsibility pillar of our N curriculum, and teaching children the importance of environmentalism using their rural setting.

We're all about making things easier for our families, and the generous car park allows for stress-free drop-offs and pick-ups.

Rethinking early years education

Working with leading experts, we've created a progressive learning programme unique to N, and entirely bespoke to each child. Designed to inspire and prepare children to thrive in our busy and ever-changing world, our N curriculum focuses on four key areas:

Holistic health

Developing mind, body and a rich understanding of self and others through physical activities, emotional literacy experiences, mindfulness and yoga.

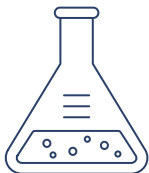

Self expression

Freedom and confidence to unleash inner creativity through words, movement, music, books and art.

Global responsibility

Building a deep connection to the surrounding world through regular trips, along with an appreciation for culture, community, diversity and sustainability.

Inventive ideas

Delighting in the scientific and mathematical structures that support everyday life in everything from technology to cooking – and the mysteries yet to be solved.

Outdoor learning and Forest School

Our imaginatively designed garden comes complete with plenty of space for playing outdoor games. Regular Forest School-inspired sessions (where children build dens, explore bug hotels and cook outside) and local community trips also form an important part of our core programme.

N Extras

In addition to our core curriculum pillars, all children have access to our N Extras, which are explored weekly in small groups. These extras are covered in our all-inclusive fees and include Spanish, cooking & baking, yoga, and Doodle Dance. We also give all children the N Passport - our programme of cultural experiences.

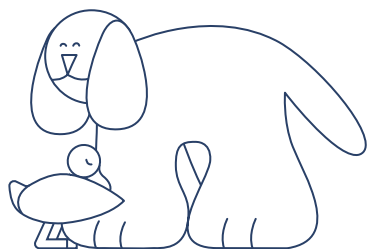

Passionate about education

Development is fundamental to our team culture and we support our educators to pursue further training and development through our N Academy. We believe this ensures the best learning environment for your children.

Nursery for the whole family

Choosing a nursery is a big decision. As well as being the foundation of your child's education, it's a new community of friends and – for many families – a new balancing act between work and parenting. At N, we go beyond for our families – giving them support, advice and a much-needed helping hand with their daily routine.

Dedicated team

Want to find out about the latest happenings at N or know when the next nursery family event will be? Look no further than our dedicated Front of House team who are there to ensure you stay up to date.

Flexibility

Subject to availability, we offer a flexible pay-as-you-go hour at either end of the day (7-8am, 6-7pm), making it easier for you to balance drop-offs and pick-ups with a busy schedule.

N App

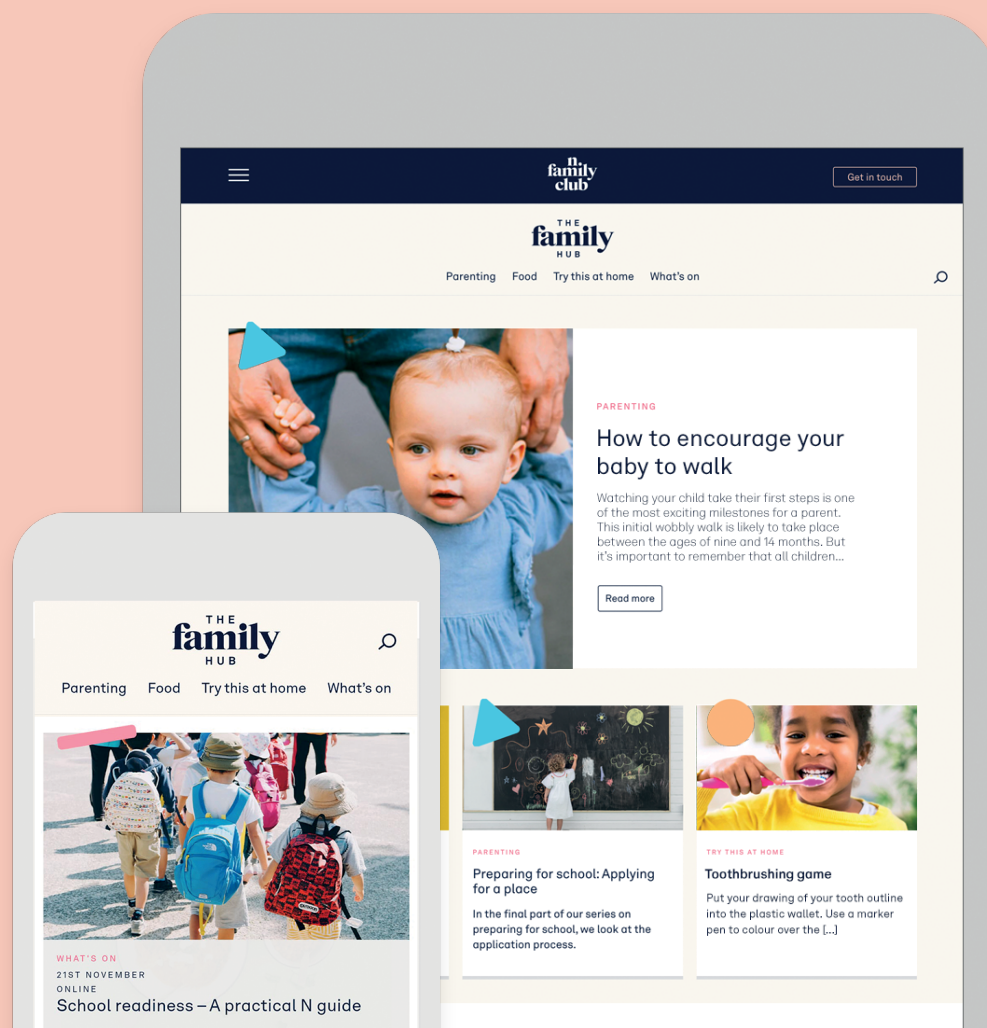

Wondering what educational activity your child is getting stuck into today? Our handy N App gives you peace of mind with daily posts and pictures, as well as information about how they're eating and sleeping.

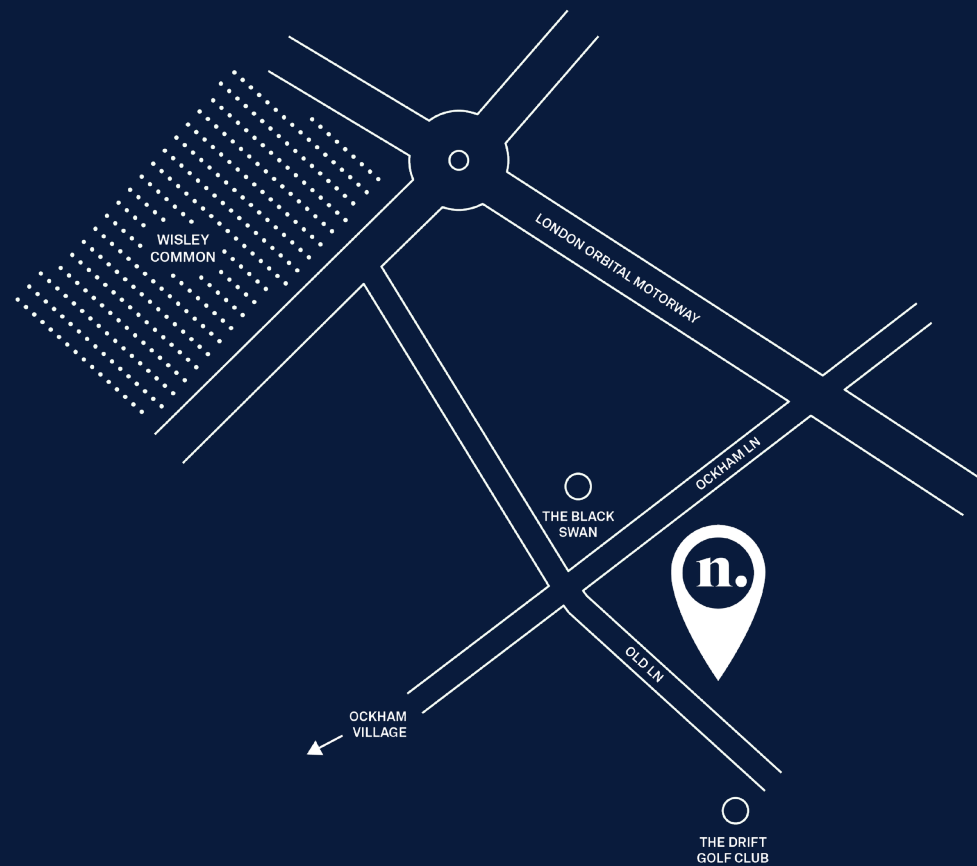

Family Club and The Family Hub

We're passionate about what we do, which is why we want to support our families with all of the many joys and challenges that parenting brings.

- Our Family Club hosts a monthly programme of expert-led online talks exploring key child developmental milestones, as well as in-nursery seasonal events and experiences.
- We've also created The Family Hub: an online platform packed with advice for the Early Years, child-approved recipes and activities recommended by our educators to try at home.
