NURSERY & PRESCHOOL

Welcome to the family

Raising a child in a big city is a balancing act. Too many parents have to compromise between work and life, wellbeing and responsibilities, their child's development – and their own. We created N with the whole family in mind. Everything we do puts you and your child first.

We couldn't be more excited about our new N Family Club, right here, in the heart of Angel. Discover a space designed from scratch for you and your family. A place to meet and relax, learn and grow, with a nursery, parents' coffee & breakfast bar, rooftop garden, and a programme of events for the whole family.

Rooftop garden

Rethinking early years education.

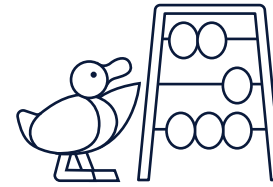

We're committed to offering you a nursery experience like no other; and with N Angel, we've gone all-out. Every element of the space has been designed through the gaze of a child and their family. It is packed full of features like a dedicated art studio, specialist messy play areas in the toddler and preschool rooms, and a rooftop garden with a race track, slide and climbing area.

Our nursery meals have been designed with the help of Laura Matthews – formerly Head of Nutrition at Jamie Oliver. For parents, we have a dedicated front of house team and a self-service breakfast bar.

A unique learning experience

Working with leading experts, we've created a progressive learning programme unique to N, and entirely bespoke to each child. Designed to inspire and prepare children to thrive in our busy and ever-changing world, it includes subjects such as yoga, Spanish, cookery, science, art, and global citizenship.

Passionate about education

Development is fundamental to our team culture and we support our educators to pursue further early years studies through our N Academy training scheme. We believe this ensures the best learning environment for your children.

Outdoor learning & Forest School

Our imaginatively designed rooftop comes complete with a water play area, slide, climbing frame and space for playing outdoor games. Regular Forest School-inspired sessions (where children build dens, bug hotels and cook outside) and local community trips also form an important part of our core programme.

Nursery room

Nursery, for the whole family.

Choosing a nursery is a big decision. As well as being the foundation of your child's education, it's a new community of friends and – for many families – a new balancing act between work and parenting.

At N, we've designed a nursery experience with the whole family in mind, and a service that puts you first. We've also created an evening and weekend Family Club programme that features both online and offline events such as expert-led talks, fitness classes, seasonal parties and our pick of the best parent-and-child classes out there.

Interested in joining us? Get in touch on our website or call us on 020 3865 7402.

Parents' area

A little helping hand

We offer a flexible pay-as-you-go hour at either end of the day (7-8am, 6-7pm), making it easier for you to balance drop-offs and pick-ups with a busy schedule. There's also a dedicated parents' area with free coffee and breakfast, magazines and WiFi.

Weekend Family Club

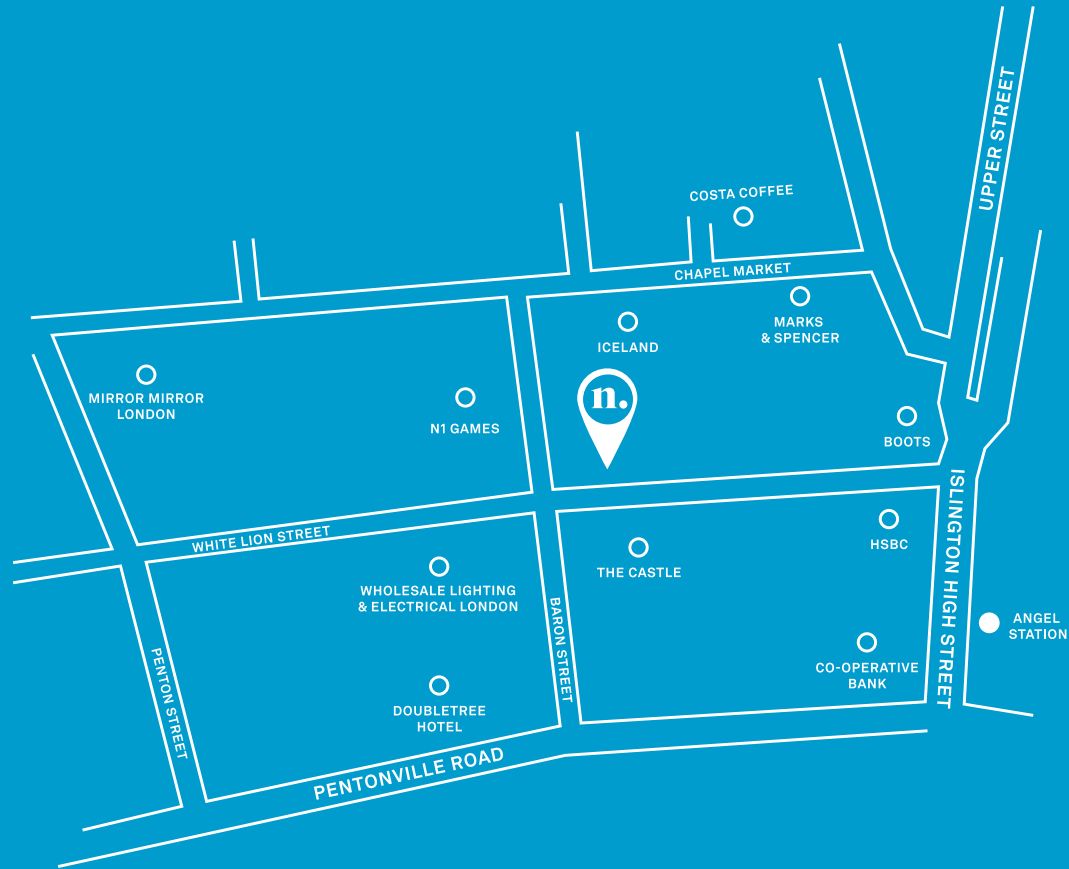

We love running both live and online events for our N families to spend quality time together. Along with art, music and baking classes, we host the best one-off events including book signings, puppet shows, sports days and animal workshops.

Parenting & wellbeing classes

We believe in building a community. As well as outdoor fitness classes in the summer, we host online evening parenting workshops and regular social events for our families to meet up and get to know each other.
